

# Free Cyber Security Consultation

## Get two hours of free personalised advice on how to protect your organisation from cyber attacks

**Cyber security is a critical priority for businesses of all sizes, but the evolving threat landscape can make it difficult to know where to start. That's why we're offering a free cyber security consultation with one of our experts.**

At Advania, we've helped hundreds of businesses protect themselves from cyber attacks and improve their security posture. Now, we're offering a free two-hour consultation with one of our experts, giving you the chance to ask any questions about your organisation's cyber security challenges. There's no obligation attached to this offer – you won't be pitched any services unless specifically asked.

Unsure where to focus? We can conduct a small assessment of your current security posture and offer suggestions on how you can improve or optimise.

## Testimonials

"His domain knowledge is superb and was able to blend the requirements alongside the commercial aspects of the business to deliver a highly insightful report with clear actions."

**Simon Baddeley, Managing Director,  
Reed Specialist Recruitment Ltd**

"If you get an opportunity to speak with Pravesh, take it!"

**Myles Gibbins, IT Director,  
Keepmoat Group**

"He has an undeniable ability to convey the right message to whatever level of audience he has in front of him, whether that is to our technical team or to our board of directors."

**Darren Desmond, Chief Information Security Officer,  
The AA**

"I would highly recommend Pravesh to any business that's serious about cyber security."

**Gurpreet Sohal, Head of IT,  
EKFB JV**

## Meet the expert
