Ultra-Efficient Business Displays

Built for productive, responsible workplaces, the **92 series** combines crisp IPS visuals, smooth 120Hz performance and 1ms response with Eyesafe and EyeComfort certification. Available in 24" and 27" Full HD or QHD models, with 100% recyclable packaging.

Energy Class B

Reduce power consumption and running costs, supporting a more efficient and sustainable workspace.

Eye Safe / Eye Comfort

Certified to reduce blue light and flicker while preserving colour accuracy, image quality and comfortable viewing all day.

4-side Slim Bezels

Ultra-slim bezels on all four sides create clean look and make the display ideal for seamless multi-monitor setups at work.

Built-in USB Hub

Connect everyday USB devices directly to the monitor, keeping your desk tidier and essential peripherals within easy reach.

93 SERIES

24" | 27"

- » Standard Business Class
- » IPS Panel
- » 1ms Response Time (MPRT)
- » EPEAT Silver / TCO10

Standard Business Displays

Built for productive, comfortable working, the **93 series** combines crisp IPS visuals, slim bezels and smooth performance with practical connectivity. Available in 24" and 27" Full HD or QHD options, with adjustable stands, TCO10, EPEAT Silver and EyeComfort.

Built-in USB Hub

Connect everyday USB devices directly to the monitor, keeping your desk tidier and essential peripherals within easy reach.

Adaptive Sync

Adaptive Sync reduces screen tearing and stuttering, delivering smoother motion for video, work tasks and casual gaming use.

4-side Slim Bezels

Ultra-slim bezels on all four sides create clean look and make the display ideal for seamless multi-monitor setups at work.

VESA 100x100

VESA 100x100 compatibility lets you mount the monitor on a wall or arm for cleaner, flexible and ergonomic workspace setup.

97 SERIES

24" | 27"

- » Eco Business Displays
- » IPS Panel
- » 1ms Response Time (MPRT)
- » USB-C (5Gbps, 5W)
- » EPEAT Silver / TCO10

- » USB-C Docking Monitors
- » IPS Panel (34" VA Panel)
- » RJ45 LAN
- » 65-95W Power Delivery
- » KVM Switch (selected models)

HEIGHT ADJUSTABLE

Professional USB-C Docking Monitors

Designed to simplify hybrid working, the **97 Docking series** bring power, data and network connectivity together through one streamlined USB-C connection. Flexible screen sizes, ergonomic comfort and smart workspace features help create a cleaner, more productive desk setup.

USB-C Dock

Connect everyday USB devices directly to the monitor, keeping your desk tidier and essential peripherals within easy reach.

Certified Eye Comfort

Low blue light, flicker-free technology and true-to-life colour accuracy work together to support more comfortable viewing.

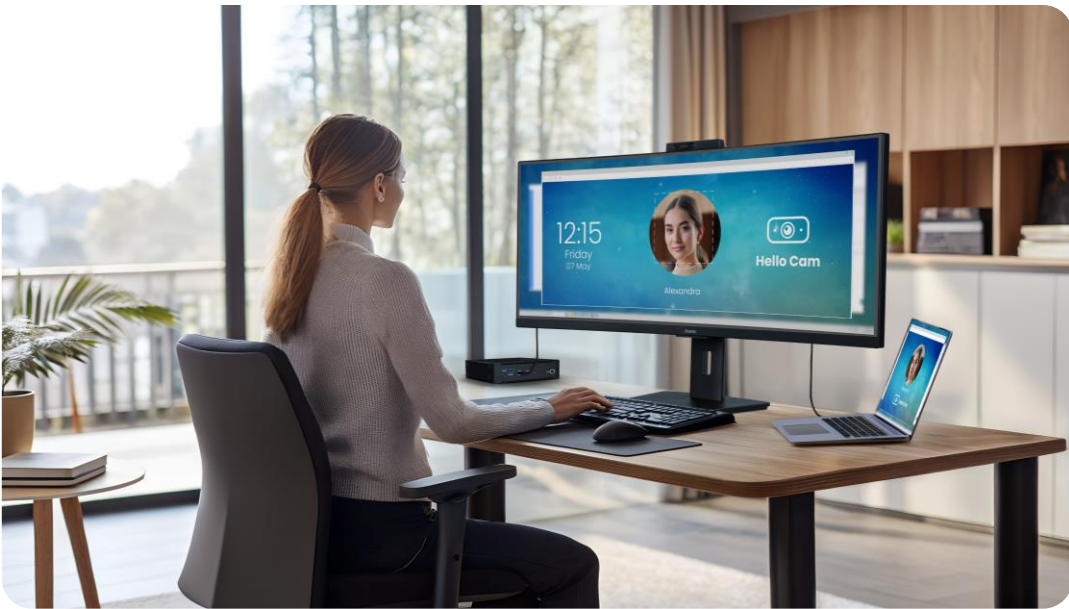

LAN Port

Connect to a stable wired network through the monitor's RJ45 LAN port, helping reduce cables and simplify your setup.

VESA 100x100

VESA 100x100 compatibility lets you mount the monitor on a wall or arm for cleaner, flexible and ergonomic workspace setup.

Hello Cam SERIES

23.8" | 27" | 34"

- » USB-C Docking (97 series)
- » IPS Panel (34" VA Panel)
- » 5MP Webcam
- » TCO 09 Certification

HEIGHT ADJUSTABLE

Professional Conferencing Displays

The **Hello Cam series** makes every meeting easier with an integrated 5MP Windows Hello camera for secure sign-in and clear video calls. Designed for hybrid work, these displays combine effortless collaboration, ergonomic comfort and streamlined connectivity.

Built-in Webcam

A 5MP webcam with microphone supports Windows Hello sign-in and delivers clear, convenient video conferencing.

Adaptive Sync

Adaptive Sync reduces screen tearing and stuttering, delivering smoother motion for video, work tasks and casual gaming use.

Built-in USB Hub

Connect everyday USB devices directly to the monitor, keeping your desk tidier and essential peripherals within easy reach.

VESA 100x100

VESA 100x100 compatibility lets you mount the monitor on a wall or arm for cleaner, flexible and ergonomic workspace setup.

ProGraphic SERIES

27" | 32"

- » Professional 4K displays
- » IPS Black 2.0 Panel
- » Precision Colour Accuracy
- » 4-side Slim Bezels

HEIGHT ADJUSTABLE

4K Creative Display

Built for designers, photographers and content creators, the **ProGraphic** displays combine IPS Black 2.0, 99% DCI-P3 and Pantone Validated colour accuracy. USB-C docking, KVM control and an ergonomic stand create a precise, connected workspace for confident creative work.

99% DCI-P3

A wide colour gamut delivers rich, vibrant tones for accurate work across photography, video and digital design.

Pantone Validated

Trusted colour accuracy helps ensure consistent results across print, video and digital creative workflows.

IPS Black 2.0

Deeper blacks and stronger contrast reveal more detail in shadows, dark scenes and high-contrast imagery.

KVM Switch

Control two connected computers with one keyboard, mouse and display for a cleaner, more efficient workspace.
